# HARVEST READY 2026-2027:
# TERMS AND CONDITIONS

1. The Harvest Ready program 2026-2027 will run from 1st October 2026 until 31st May 2027 (inclusive). Harvest Ready is available for AGCO combines that are five years or older (first registration date of the inspected machine is before 31st May 2022), which are not already covered by a valid AGCO service or extended warranty contract.

2. The Harvest Ready program is available only through AGCO dealers. All checks and any subsequent remedial work will be undertaken by trained and professionally equipped technicians. All subsequent remedial work will be quoted and approved with the customer by the dealer performing the inspection. Participation in the Harvest Ready program is subject to dealer availability, and not all AGCO dealers may participate for the full duration of the program.

3. The Harvest Ready Program includes the following services for eligible AGCO Combine machines inspected by authorized AGCO dealers:
   - Cleaning the machine.
   - Comprehensive 100+ Point Inspection: Includes checks of all key wear parts.
   - Free Software & Calibration Check. Updates or calibrations are not included.
   - Inspection Report and repair recommendations.

4. Customers who complete a qualifying Harvest Ready inspection through an authorized AGCO dealer may be eligible to receive a 10% discount from the AGCO dealer who conducted the inspection. The discount applies to original AGCO-branded parts, consumables, and maintenance-related items used as part of qualifying maintenance or remedial work, excluding Oils, Lubricants, Sparex-branded and other third-party products, subject to applicable program limits and dealer participation. Eligible customers may also, from time to time, receive access to additional promotional offers or incentives associated with the Harvest Ready program, subject to separate eligibility requirements and applicable terms and conditions.

5. AGCO will collect customer contact information (email address or phone number), and customer data collected through this Program will be handled in accordance with AGCO's Privacy Statement.

6. The decision of AGCO regarding any aspect of the Harvest Ready program is final and binding.

7. AGCO reserves the right to hold, void, cancel, suspend, or amend the Harvest Ready program where it becomes reasonably necessary to do so.

8. The Harvest Ready program will be governed by Swiss law, and participating customers are required to submit to the jurisdiction of the Swiss courts.
