FENDT MOMENTUM 32R30 PLANTER

FENDT

OUR BIGGEST, BOLDEST PLANTER YET JOINS THE MOMENTUM FAMILY.

The new Fendt® Momentum® 80-foot 32R30

Built for large-acreage operations, the new Fendt® Momentum® 80-foot, 32-row planter combines increased productivity, high-capacity seed and fertilizer systems and industry-leading agronomic technology. With SmartFrame™, Load Logic™ and factory-integrated Precision Planting® systems, the Momentum 32R30 helps maximize efficiency, planting accuracy and emergence potential across every field.

FENDT MOMENTUM 32R30 SPOTLIGHTS

Cover more acres while maintaining the agronomic precision Momentum is known for.

Load Logic™ and Load Logic™ Lite.
With the Momentum 32R30, farmers now have more options to automatically manage planter weight as field conditions change, mitigating yield robbing soil compaction.

Five-Section Vertically Contouring Toolbar (VCT).
The new five-section VCT increases toolbar flexibility across the wider operating width, helping row units follow changing terrain for consistent planting depth, accurate seed placement and more uniform emergence.

Precision Planting.
Ensure 99%+ accuracy all the time with the latest innovations from Precision Planting, all integrated right from the factory.

Maneuvering Capability.
Momentum's narrow 12' x 12' transport package helps simplify road travel and field-to-field movement, giving large-acreage farmers the productivity of an 80-foot planter with easier maneuverability and roading.

Planting Efficiency.
This new 80-foot, 32-row configuration helps farmers cover more acres per day, while standard 130-bushel seed capacity and 1,000-gallon fertilizer capacity help reduce tendering frequency and keep the planter moving.

FTPM32	
Spacing (in.)	30
Weight Management Options	Load Logic™ Lite OR Load Logic™ Weight Management System
Standard Precision Planting Components	20/20 Gen3 Monitor, vSet®2 meters with vDrive®, DeltaForce®
Capacity	Twin, 65 bu. seed tanks
Liquid Fertilizer Option	1,000 gallon liquid fertilizer tank, Row-Unit Single Band Conceal® or Keeton® Seed Firmers
Vertically Contouring Toolbar (VCT) Sections	5
Empty Weight lbs. (kg.)	44,750 (20,300)
Transport Width ft. (m)	12 (3.65)
